Docket No. 98N-1265  
06 Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

It is difficult to find competent compounding pharmacists from whom one can obtain hormones individually prescribed for accuracy & maximum positive effect. All women do not benefit from prescription strengths avail through synthetically produced products. I could find nowhere in Calif. and needed to find a place like Madison Women's Health specializing in women's needs. Please do not affect the physical regimen of many postmenopausal women.

Please fold, seal, and mail by June 1
